

Vision Statement

Be the premier stewards of
entrusted hydropower resources

US Army Corps
of Engineers

Mission Statement

Provide reliable hydroelectric power services at the lowest possible cost, consistent with sound business principles, in partnership with other Federal hydropower generators, the Power Marketing Administrations, and Preference Customers, to benefit the Nation.

US Army Corps
of Engineers

Strategic Objectives from Tulsa Workshop and Initiatives in Progress

- Provide power services at lowest sustainable cost through sound project management principles (cost benchmarking)
- Meet or exceed industry standards for reliability and availability through sound strategies such as asset management and sustainment of a skilled workforce (FEM Implementation, hydroAMP, national asset management strategy)
- Optimize the hydropower resources within authorized project purposes and environmental laws (value of power, competing uses)
- Strengthen and sustain hydropower partnerships with the power marketing administrations, preference customers, and federal power agencies (alignment of performance measures, O&M standards, power reviews)

US Army Corps
of Engineers

Purpose & Overview of Workshop Objectives

Purpose - Maintain alignment with Tulsa initiatives and stimulate innovative thinking to solve on-going challenges of aging infrastructure, funding, competing uses, etc.

US Army Corps
of Engineers

Workshop Objectives & Themes

Consistent with the Corps' Civil Works Strategic Plan and Actions for Change:

- **Continue to build a unified Hydropower Community that speaks with one voice relative to Federal hydropower issues and challenges**
- **Revisit high priority strategic initiatives from the 2005 Tulsa workshop**
- **Theme – Produce sustained hydropower funding**

US Army Corps
of Engineers

Workshop Objectives & Themes

- Develop a Hydropower Infrastructure Modernization Initiative
- Review issues and policy relative to hydropower impacts from competing uses of water
- Theme – Produce sustainable hydropower infrastructure and generation given competing water uses

US Army Corps
of Engineers

Workshop Objectives & Themes

- Develop a communication strategy around hydropower as a national strategic resource
- Theme – Produce an empowered and aligned hydropower community

US Army Corps
